

EDITOR'S PREFACE

These Proceedings document the scientific program of the Workshop on Teichmüller Space and Related Topics, which was held at Josai University, on January 20, 2011.

They contain six refereed papers, spanning a broad range of topics within Teichmüller Space and Related Topics or other fields.

The editors would like to cordially thank them who made an effort to comply with our submission guidelines.

Editing this volume was, and could only succeed as, a team work. We sincerely appreciate the dedication and countless hours of work invested by all participants of the workshop.

We hope that this volume and the activities will provide the reader with a good view of the present status of Teichmüller Spaces in many different aspects.

The workshop and the publication of this Proceedings were totally supported by Funding from the Special Grant of Josai University. We would like to express our thanks to the Authorities of Josai University who have supported the program financially, and to the Director of Josai University who permitted us to use the institution of the university.
