## JMM 14. Inverse Problem from Theory to Applications

*Proceedings of JMM Workshop on Inverse Problem Seminar  
from Theory to Applications  
– Finland-Japan Seminar for Inverse Problem –  
held at Josai University on January 27 – 28, 2025*

### Contents

<i>Preface</i> .....	iv
MASARU IKEHATA <i>Analytical methods for inverse obstacle problems</i> .....	3
HIROSHI ISOZAKI, MITSUTERU KADOWAKI, AND MICHUYUKI WATANABE <i>Asymptotic properties of solutions to elastic equations in a perturbed half-space in <math>\mathbf{R}^3</math></i> ..	47
MISHIO KAWASHITA AND WAKAKO KAWASHITA <i>On active sonar-type wave scattering inverse problems for different types of cavities</i> ..	65
DAISUKE KAWAGOE <i>Remarks on propagation of discontinuities in stationary radiative transfer</i> .....	93
RYUSEI YAMASHITA <i>Note on monotonicity tests for the magnetic Schrödinger operator</i> .....	111
HISASHI MORIOKA AND STEEVE GRÉAUX <i>Scattering theory for one-dimensional wave equations with thin bond layers</i> .....	123
